There was a 13 week in show featured on Mother's Polish Car Show Series on a ground up build of two '57 Chevys built at S&P. The Red car has a LS-1 with a 4L60E transmission. The Green and Silver car has a LS-7 in front of a T-56 6 speed transmission. A free DVD can be yours by calling S&P. See our web site for links to the manufacturers involved in the Street & Performance TRI-FIVE ALIVE projects.
